

**TO WHOM IT MAY CONCERN:**

**I am pleased to be asked to write a letter of recommendation for Barry Wurzel, president of Wurzel Builders, Ltd.**

**As a project architect and construction supervisor for Southwest Research Institute in San Antonio, I have the responsibility of screening and selecting the construction companies doing work on behalf of Southwest Research. Our screening process requires that each potential candidate comply with strict insurance requirements, meet certain size requirements and the ability to handle technical construction projects, which are typical for any research facility. Wurzel Builders has shown both professionalism and quality of workmanship with both their staff and the subcontractors working on their behalf. At all times, Wurzel has shown a strong commitment to providing quality workmanship and completing each job within reasonable time constraints. My current and past work experience with Wurzel Builders has been valuable.**

**It is my privilege to recommend Barry Wurzel and Wurzel Builders, Ltd. as a potential construction candidate for your company.**

**Sincerely,**

**Paul Medlin**
